*A very special thank you*

to all of Max's friends and golfing buddies for their contributions to the memorial for him near the 11th tee box. A special thank you to Joanne Barnes for getting it organized and to Becky Otto for making the spot, and the whole course, a beautiful place to be.

I appreciate South Side for letting the family and his many friends honor his memory in this way. It seems the most fitting for Max to be remembered on the golf course. I know it would please him.

Sincerely,

Mary Evans

## Golf Tips of the Month

### Pace of Play

#### Play at Good Pace and Keep Up

Players should play at a good pace. The Committee may establish pace of play guidelines that all players should follow.

It is a group's responsibility to keep up with the group in front. If it loses a clear hole and it is delaying the group behind, it should invite the group behind to play through, irrespective of the number of players in that group.

### Be Ready to Play

Players should be ready to play as soon as it is their turn to play. When playing on or near the *putting green*, they should leave their bags or carts in such a position as will enable quick movement off the green and towards the next tee. When the play of a hole has been completed, players should immediately leave the *putting green*.

### Lost Ball

If a player believes his ball may be *lost* outside a *water hazard* or is *out of bounds*, to save time, he should play a *provisional ball*.

Players searching for a ball should signal the players in the group behind them to play through as soon as it becomes apparent that the ball will not easily be found. They should not search for five minutes before doing so. Having allowed the group behind to play through, they should not continue play until that group has passed and is out of range.

### Priority on the Course

Unless otherwise determined by the Committee, priority on the course is determined by a group's pace of play. Any group playing a whole round is entitled to pass a group playing a shorter round.

### Care of the Course

#### Bunkers

Before leaving a *bunker*, players should carefully fill up and smooth over all holes and footprints made by them and any nearby made by others. If a rake is within reasonable proximity of the *bunker*, the rake should be used for this purpose.

### Repair of Divots, Ball-Marks and Damage by Shoes

Players should carefully repair any divot holes made by them and any damage to the putting green made by the impact of a ball (whether or not made by the player himself). On completion of the hole by all players in the group, damage to the putting green caused by golf shoes should be repaired.

Thank you,  
*Michael*
